

Right from the start we have committed ourselves through our company policy to place Quality at the focus of our customer relationships. Our understanding of quality is certified in accordance with DIN EN ISO 9001:2000 and put into practice on a daily basis by satisfying the expectations of our customers.

??In addition to this, [training](#) junior employees has a high priority within our company. Because well-trained staff is the basis for a trustful partnership with our customers irrespective of the social commitment to offer training activities.?

Special importance has been assigned within the scope of our Quality Management to the protection of the [environment](#). Here we do not only understand this as production methods in line with statutory regulations and the corresponding protection of our staff, but also the economic utilisation of resources and energy in a sustained manner.
